

# Getting the best out of Math-Whizz

## TOP 4 TIPS

1.

### Math-Whizz assessment

Conducted in school (not at home) and completed independently to understand students' needs

2.

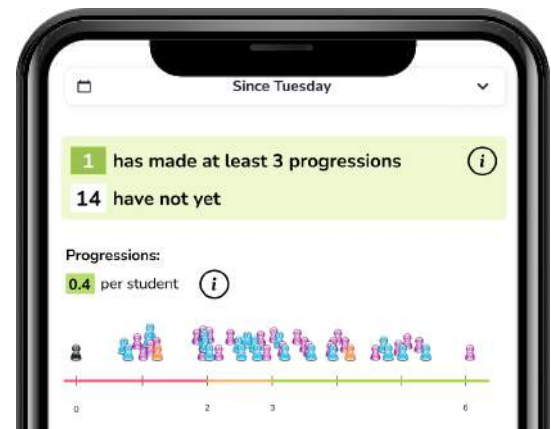

### 60-Minutes a week

Create your own schedule. This could be one long sitting or split into shorter ones.

3.

### Weekly Data Review

Regularly review the learning data to monitor students Usage and Progressions.

4.

### Take action

Act promptly on the data insights to improve Usage or provide tailored support to enhance student learning.
